

AMARA RAJA

Gotta be a better way

HEALTH, SAFETY & ENVIRONMENTAL POLICY

The environmental protection, occupational health and workplace safety are given utmost importance in all our activities of lead acid batteries design and manufacturing.

We are committed to conduct our operations in a diligent and responsible manner, focusing on:

Prevention of workplace injuries and ill health

Prevention of pollution

Safe handling of lead and other hazardous materials

Optimal utilization of energy and natural resources

Complying with applicable legal and other requirements

Continual improvement in our occupational health, safety and environmental management and performance

We will continuously promote occupational health, safety and environment awareness and responsibility amongst all our stakeholders, bringing value to our employees, customers, associates and our community.

Jayadev Galla
